# MAYOR'S

Dear Citizens:

**2012** promises to be an exciting year in the City of Allentown as we mark our 250<sup>th</sup> Anniversary! The city will host monthly events throughout the parks system and other city venues in celebration of this momentous achievement.

The Department of Parks and Recreation is working on multiple renovation projects and additions to Allentown's expansive park system.

In 2011, the unique Jordan Park clay tennis courts were

restored and utilized by more than 145 youth during the Embrace Your Dreams summer program. Additionally, the tennis courts at Percy Ruhe are being renovated, as well as a popular basketball court at Fountain Park.

Thanks to \$500,000 in grants, a renovation project at Keck Park is underway. Watch for updates to existing fields and other improvements throughout the park.

In addition to these renovations, improvements will be made at Lil Le-Hi Trout Nursery, including environmental education signage, new safety railings around the ponds and bridge improvements to safely connect the trout nursery to the Lehigh Parkway trail system.

A project at Trout Creek Parkway will restore 1.5 miles of stream-banks along Trout Creek. Key partners of this restoration project include the Pennsylvania Fish & Boat

Commission and Wildlands Conservancy.

To further enhance the city's beautiful park system, the Department of Parks and Recreation is working to develop a city-wide park and trail signage and way-finding system. This exciting project will create a brand image for the Allentown park system, and provide coherent signage throughout all of the city's parks.

The project to connect the park system through trails and bike paths, *Connecting Our Community*, is moving forward on schedule. *Swimming Towards the Future*, the master plan to enhance aquatic recreation in Allentown, is also progressing as projected. For more information on these projects, see pages 18-19.

As the city moves forward to protect, enhance, and expand our unique and treasured park system, I encourage you to take advantage of the myriad of recreational programs and special events offered in Allentown. As you learn more about the opportunities offered in our city, I believe you'll agree with me that Allentown provides a great array of play and recreational activities for all ages and abilities.

A Living Tribute Plant the future, Celebrate the Past

Trees aid in pollution reduction, air quality improvement, climate moderation, wildlife habitat. Trees can aid in energy cost savings, control water run-off and slowly return filtered water to the ground.

# 2011-12 CITY-WIDE PA

The City of Allentown, Wildlands Conservancy, and the PA Fish and

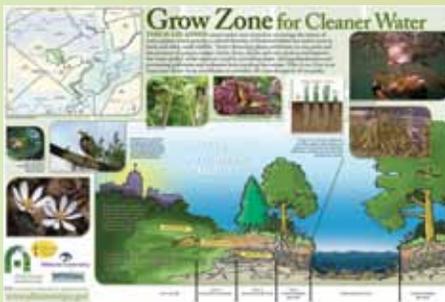

Boat Commission, along with several other partnering agencies, are implementing a large scale ecological restoration project on the nearly 1.5 miles of Trout Creek that flows through Trout Creek Parkway. The restoration (above) involves removing man-made structures to return the stream channel and floodplain to its natural state, replacing the expansive invasive plant communities with native ones, and installing habitat structures to encourage the return of wildlife.

In a continued effort to green the City, the Department completed landscaping at the Lehigh and Jefferson Street Island on the south side of Allentown.

Multiple city park buildings were painted in 2011 like the Parks and Recreation Office (above) and the tack house in the Lehigh Parkway (below).

Throughout the city's expansive park system, you will begin to notice these 'Grow Zone' signs. 'Grow Zones' are areas left untouched to provide habitat for wildlife, stabilize stream banks and to add to the overall aesthetics of our beautiful park system.

A city-wide way-finding signage plan is currently underway to help residents and visitor safely a

# PARK IMPROVEMENTS

Renovations to Jordan Park tennis courts provided better facilities for the 147 children who participated in the Embrace Your Dreams tennis program at these unique clay courts. The tennis courts at Irving Street and Percy Ruhe are also being refurbished.

Jackson Street Community Park will begin a revitalization project during 2011-2012.

New restrooms in Lehigh Parkway will be completed this fall and winter.

Thanks to a generous donation from the Rose Garden Neighborhood Association, a new fountain (below) was installed in the Old Fashion Garden in Cedar Creek Parkway.

The Department of Parks and Recreation has been working throughout 2011 with Aquatic Analysts to restore the water quality at Lake Muhlenberg, Union Terrace, Trexler Park and the Rose Garden reflective ponds.

Beginning in 2011 and finishing in 2012, more than \$500k in improvements will be completed at Keck Park thanks to numerous state, county and local grants. The parking lots, trails, restrooms and fields will all be restored.

Thanks to a donation from the Swain School, the "Cube and Thread" sculpture was completed at Lake Muhlenberg.

The Dog Park Master Plan has been revised and will include off-leash areas for both large and small dogs, an agility course, shaded structures and natural areas for canine recreation. The dog park will be built in Trout Creek Parkway East, near the old Auburn Station. ## A PLAN FOR CONNECTING ALLENTOWN'S PARKS AND PEOPLE THROUGH A NETWORK OF BICYCLE AND PEDESTRIAN TRAILS

### Project Update - Design for First On-Street Bicycle and Pedestrian Improvements Advances

On April 27 2011, members of the community participated in a public workshop on national best practices in bicycle and pedestrian facility design and viewed and commented on design concepts for the Turner-Linden street corridor. Renderings showing different types of bicycle facilities (parking-protected bicycle lanes, buffered bicycle lanes, enhanced sharrows, and standard sharrows) were shown. Later, meeting participants divided themselves into groups based on their cycling abilities and participated in a preference survey about the different design options. City representatives and project consultants were on hand to answer questions and discuss concepts. To review the public meeting materials, please visit the project site at [www.allentownpa.gov/parks](http://www.allentownpa.gov/parks).

# SWIMMING TOWARDS THE FUTURE AQUATICS

Project website [www.allentownpa.gov/parks](http://www.allentownpa.gov/parks)

## A PLAN FOR ALLENTOWN'S POOLS AND SPRAY PARKS

### Project Background

Currently, the city owns and operates five swimming pools and two spray parks. In the city's 2006 Park and Recreation Master Plan, a recommendation was made that the existing aquatic facilities and programs be evaluated and planned to meet the changing needs of the community.

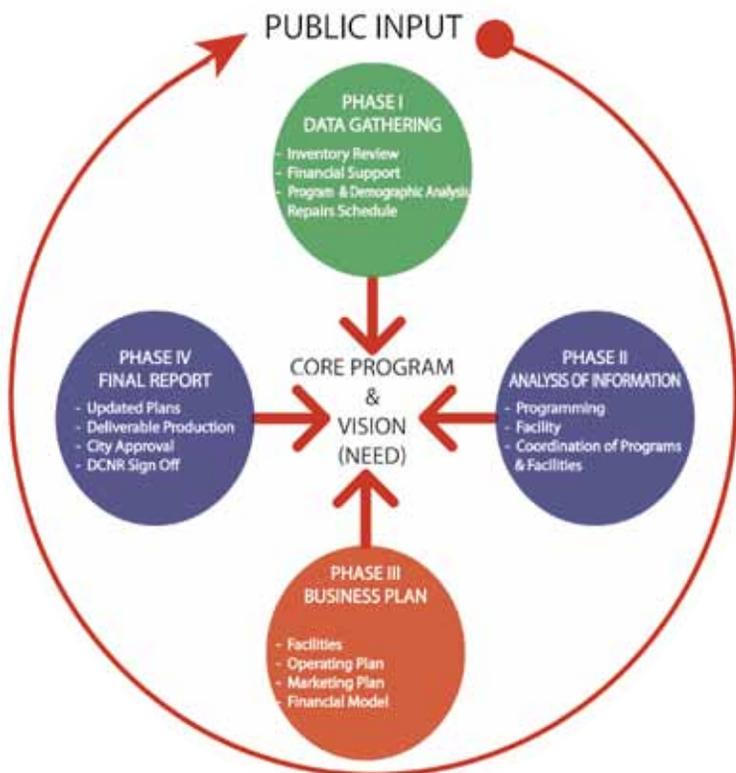

### Planning Process Update

A thorough inventory of current facilities is being completed to assess repairs required on existing facilities. Local demographics, financial feasibility and needs are also being reviewed. Additionally, public input on current deficiencies and future opportunities has been received, and this information and alternative plans will be presented at **Open House #2 on Tuesday, October 25 at the Allentown Public Library from 5:00pm - 7:00pm.**

The next steps of the planning process will continue this effort to develop and implement a cost efficient operational plan, and ultimately offer a new aquatic experience for people of all ages and abilities.

### Draft Plan Overview

The following graph represents the approach that will be taken to conduct this study. The Project Steering Committee and the public will be encouraged to provide their feedback throughout all the phases. All voices are welcome, and comments, suggestions and feedback will be taken into account.

### Why Tobacco-Free Zones?

- **Health**—Protect public from the negative health consequences of exposure to secondhand smoke outdoors.
- **Environmental**—Protect the park environment from the risk of cigarette-causing fires and litter.
- **Policy**—Philosophy behind parks is contradicted by allowing tobacco use.
